

Dignified Style for Day into Night

Sporty elegance and function, the Mondaine Gents Sport Night Vision and Sport Day Date are dignified and useful companions for both on the road and everyday wear. Both pieces in this collection are available with a metal bracelet or leather band. Ingenuity and simplicity come together to create a collection that is ideal for the Mondaine consumer with both classic style and sophisticated taste. The Gents Sport is a truly iconic design for the young distinguished customer.

All Mondaine watches with Night Vision feature must undergo additional manufacturing steps that other watches do not require. The self-powered illumination system must be fitted into the watch dial and hands.

The watch employs tiny self-powered micro gaslights, developed by the Swiss world leader in the luminous compound industry. These watches need no external light source to “charge” the points on the dial or hands, in order to glow, as do conventional luminous watches. Nor do they require the push of a button to light the dial, as do watches with electroluminescence. This system allows one to view time at a glance, no matter what the light level, even in complete darkness.

Among Mondaine’s most durable timepieces the Night Vision and the Day Date have been tested water resistant to 10 ATM. Both watches are accompanied by a two-year warranty and backed by the Mondaine International Service Network (MISO). Suggested retail price Mondaine Sport I Night Vision CHF 325.—for leather strap model, CHF 395- for the metal bracelet. Mondaine Sport I Day Date CHF 235.—for the leather strap model, CHF 300.—for the metal bracelet version.

Mondaine represents affordable luxury. The timepiece design is distinct, clean and immediately identifiable thanks to its signature red seconds hand, which also offers superior legibility. This is a superb selling point for retailers and a high-demand feature for consumers. The timepieces are crafted of high-quality materials and are Swiss made.

Mondaine Watch Ltd. is the creator of the Official Swiss Railways Watch collection, licensed by the “Swiss Railways SBB” and launched just over 20 years ago. It represents the consumers’ version of the Swiss Railways Clock. In Switzerland, 3,000 of these famous Swiss clocks have indicated the precise time at all Swiss train stations for more than 60 years.
