*Comment** The first time I saw Mondaine's Official Swiss Railways Watch, it was in a magazine. I was instantly drawn to the minimalist yet efficient design. I loved it. It was only years later that I requested one for my birthday. What's interesting is that I now sometimes notice other people wearing one too! We usually then share a smile - a smug smile - knowing that we have good taste and we're part of the same family. Best wishes to Mondaine and long live good design! *Fill out all marked fields**
